KEERTHI PRAKASH T

DATA ANALYST • BUSINESS ANALYTICS • SOFTWARE DEVELOPER

Tamil Nadu, India | +91 63819 81530 | keerthiprakash.kp33@gmail.com | linkedin.com/in/keerthiprakasht | github.com/keerthiprakash18

PROFESSIONAL SUMMARY

Analytical Data Analyst with a B.Tech in Artificial Intelligence & Data Science from CARE College of Engineering (CGPA: 7.29/10). Hands-on proficiency in SQL, PostgreSQL, Python (Pandas, NumPy), Advanced Excel, and Power BI for business reporting, exploratory data analysis, and dashboard design. Published author of original research in IJFMR automating analytical reporting workflows with a 70%+ turnaround reduction. Combines analytical rigor with full-stack execution, having engineered and shipped live production web applications including FC Arena and Smart Expense Tracker.

TECHNICAL SKILLS

Data Analytics & BI:	SQL, PostgreSQL, Relational DB Design, Power BI, Advanced Excel (XLOOKUP, Pivot Tables, Solver), Power Query, KPI Tracking, MIS Reporting, Data Cleaning.
Python & Automation:	Python, Pandas, NumPy, Exploratory Data Analysis (EDA), Statistical Modeling, Automated Data Pipelines, Anomaly Detection.
Software Engineering:	React, Next.js, Django REST Framework, NestJS, RESTful API Architecture, Redis, Docker, Git/GitHub, Cloud Deployment (Vercel, Railway).

PROFESSIONAL EXPERIENCE & INTERNSHIPS

Data Science Intern | Corizo EdTech Pvt Ltd **Aug 2025 – Sep 2025**

- Performed exploratory data analysis (EDA) on structured business datasets using Python, Pandas, and NumPy to identify behavioral trends.
- Built analytical Excel dashboards with automated formulas and pivot tables, improving reporting efficiency for educational metrics.
- Collaborated on analytical case studies translating complex dataset patterns into executive summaries and actionable recommendations.

Networking & Systems Intern | Kaashiv InfoTech **Aug 2024 – Sep 2024**

- Configured network topologies, IP routing, subnet masks, and packet troubleshooting protocols in simulated enterprise environments.
- Maintained technical documentation and system log audits to support infrastructure reliability.

KEY PROJECTS

FC Arena – Football Esports Tournament Management Platform [*Live: fcarena.in*] **Next.js, NestJS, PostgreSQL, Redis**

- Architected and shipped an end-to-end tournament platform supporting player registrations, dynamic brackets, and match records.
- Developed automated Round-Robin and Home/Away scheduling algorithms with strict result validation and anti-duplicate count safeguards.
- Designed SQL database schemas in PostgreSQL with Prisma ORM; deployed in production, servicing 20+ active competitive players.

Smart Expense Tracker – Personal Finance Application [*smart-expense-tracker-v3.vercel.app*] **Django REST, React, PostgreSQL, OCR**

- Built a full-stack financial management tool with category-level budgeting, recurring transaction rules, and cash-flow visualizations.
- Integrated OCR document extraction pipeline to parse receipt data (merchant, amount, GSTIN, payment method) directly into structured SQL records.
- Implemented robust JWT authentication, email 2FA verification, data backup/restore, and CSV export functionality.

RESEARCH PUBLICATION

Smart Daily Report Automation System Using AI | *IJFMR, Vol. 8, Issue 2, Mar-Apr 2026 (Paper ID: 72819)*

- Conducted research demonstrating automated business report extraction and aggregation from multi-source databases using Python & Pandas.
- Implemented automated KPI derivation, variance detection, and NLP-driven summary generation, reducing manual reporting turnaround by over 70%.

EDUCATION & PROFESSIONAL TRAINING

B.Tech – Artificial Intelligence & Data Science **2022 – 2026**
CARE College of Engineering, Tamil Nadu **CGPA: 7.29 / 10**

- **Data Analytics Intensive Program:** AccioJob (6-Month Rigorous Industry Track – Ongoing)
- **PwC Business Analytics Program:** Industry Analytics & Corporate Governance Simulation – Ongoing
- **Certifications:** Business Analytics with Excel (Simplilearn) • Data Science (Corizo) • Networking (Kaashiv)
